PUBLIC NOTICE NUMBER 04-009

May 14, 2004

NOTICE IS HEREBY GIVEN, the Division of Water Pollution Control will hold a public hearing, pursuant to Rule 1200-4-1-.05 at:

June 14, 2004

7:00 PM

Cookeville Environmental Assistance Center
1221 South Willow Avenue
Cookeville, Tennessee 38506

Public comments will be received concerning the proposed issuance of a State water quality permit (ARAP) to:

J & S Construction
1080 South Willow Avenue
Cookeville, TN 38501

The applicant proposes to relocate an outfall structure at a wetland/detention basin and relocate 230' of the stream channel between the wetland/detention basin and a box culvert located on Willow Avenue. The relocated channel will consist of approximately 115' of open channel with the remainder being rerouted around the southern and eastern boundaries of the property through a pipe. The stream relocation would allow for commercial development. To compensate for the lost surface water resource value, the applicant will do wetland mitigation and will implement such measures upon a determination by the Division of Water Pollution Control that the proposed mitigation is sufficient.

The hearing officer may limit the length of oral presentations in order to allow all parties the opportunity to speak, and will require that all testimony be relevant to water quality issues. Written testimony will also be accepted at the hearing, and will be considered part of the hearing record.

Interested persons may obtain additional information, or inspect and copy the draft permit and related documents at the Division's office in Nashville.
